

In Class Activity 1

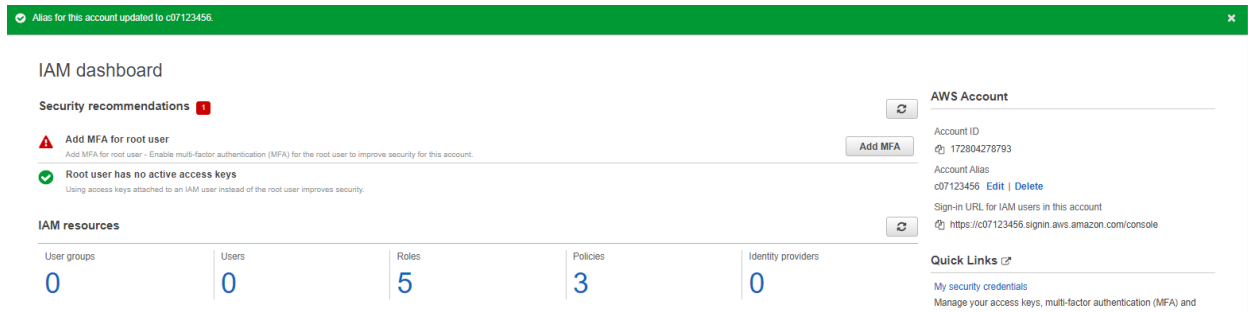

AWS Account and IAM

First name	Last Name	Student number

Submission date: *[Insert submission date here]*

Description

- Sign up to AWS using <https://aws.amazon.com/>
- Go to IAM and modify the alias of your account to your Student ID (c0xxxxxxx) (make sure c is lowercase)

- Create a new user and name it with your firstname-lastname (for instance, william-pourmajidi should be my username)
- Create a group called "Admin"
- Give full privilege to
- Associate the new user with the group
- Complete the process
- Setup MFA (Multi-factor authentication)
- Setup two budges (one zero budget and one monthly)

Submission Procedure

1) Document the Process with enough description and screenshots. For each screenshot, please put the appropriate description.

2) Convert the merged document to PDF.

3) Store the PDF using the following naming convention

"InClass-ActivityN-StundetID-XXXXXXX.pdf"

(Where N is the number of in-class activities and XXXXXXX is your student ID)

3) SUBMIT the PDF to D2L
